---

ARTIFICIAL INTELLIGENCE

# This artist is dominating AI-generated art. And he's not happy about it.

Greg Rutkowski is a more popular prompt than Picasso.

# Exeptions and limitations in copyright law includes

- **Mandatory exeption for a temporary copy**
- BUT
- Global Three Step TEST. ( Berne Convention art. 9(2)/ TRIPS art 13 etc. )
- It shall be a matter for legislation in the countries of the Union to permit the reproduction of such works [a] in certain special cases, provided that [b] such reproduction does not conflict with a normal exploitation of the work and [c] does not unreasonably prejudice the legitimate interests of the author.

# Exeptions in the DSMA 2019

- Text and Datamining
- Article 3: Research Institutions and Cultural Heritage Institutions (Libraries;Archives;Museums)
- Article 4: General exeption BUT
  - - . The exception or limitation provided for in paragraph 1 shall apply on condition that the use of works and other subject matter referred to in that paragraph
  - **has not been expressly reserved by their rightholders in an appropriate manner, such as machine-readable means in the case of content made publicly available online.**

# Copyright Issues

- *What constitutes the human element in AI generated Art?*
- *What constitutes withholding of consent for scraping images for commercial purposes?*
- *What about the trade off in copyright in which artists are granted a temporary monopoly and in return provide the world with creative content?*
