

The public defence takes place in the morning, 11:00, in the [aula of the academy building](#) of the University of Groningen.

In celebration of Cor's defence, there will be an academic workshop with various talks on the design of responsible AI (14:00-17:00).

After the defence reception (in the academy building) and before the workshop, an informal lunch will be available at the workshop location (served in the hall of Oude Boteringestraat 38 at around 13:15).

Schedule:

14:00 Opening

14:05 [Tom van Engers](#) (University of Amsterdam) The Rise of Knowledge-driven AI

14:35 [Floris Bex](#) (Utrecht University/Tilburg University) Graph Neural Networks for Solving Argumentation Problems

15:05 Break

15:30 [Francesca Toni](#) (Imperial College London): AI, Argumentation and Contestability

16:00 [Marco Grzegorzczuk](#) (University of Groningen) The Flexibility of Gaussian Bayesian networks

16:30 [Fokie Cnossen](#) (University of Groningen) Human-Machine Interaction and AI

17:00 Closing

The workshop takes place in the old courtroom of the former court, now in the building of the University of Groningen's Faculty of Religion, Culture and Society: [Oude Boteringestraat 38 in Groningen](#). This is just a few minutes' walk from the location of the defence.

Online access to the workshop via Google meet (<https://meet.google.com/ndq-pggd-ggw>).

Please share your attendance using this form.

Do you plan to attend the workshop (14:00-17:00)?

Yes
