

LECTURES ON SOLAR PHYSICS

- *Monday: solar observing*
 - optical solar telescopes
 - numerical wavefront restoration
- *Tuesday: solar radiation*
 - AST1000 introduction to solar spectrum formation
 - AST3000 summary of solar spectrum formation
- *Wednesday: solar acoustics*
 - global oscillation observations
 - global oscillation theory
- *Thursday: solar chromosphere*
 - chromospheric structure
 - chromospheric line formation
 - chromospheric waves
