

Astrovaria

Faculty: Faculty of Physics and Astronomy

ECTS credits: 7.5 **Category:**M **Course code:** NS-AP401M **Period:** 30/08/2004 to 02/09/2005 (TOT)

Language of instruction On request in English

Aims and content: Astrovaria denotes an activity in astronomy, with a choice from a wide choice in content. Examples: write a popular-astronomy article, be part of an observing campaign (DOT, Westerbork, elsewhere), do a small research project, prepare course material for astronomy education. You are welcome to suggest suitable content yourself. The choice needs the prior consent of the astronomy education coordinator (prof.dr. R.J. Rutten or dr. O.R. Pols). Teacher: any astronomy teacher.
This course can also be done a second time in a different subject as an optional astrophysics course (NS-AP450).
